

## ECO-Block is Associated with the following North American and Australian organizations:

ECO-Block has helped many projects to achieve  
**LEED certification** in the USA from the  
United States Green Building Council

### Leadership in Energy and Environmental Design (LEED)

The LEED® (Leadership in Energy and Environmental Design) Green Building Rating System™ is a voluntary, consensus-based program for developing high-performance, sustainable buildings. Based on well-founded scientific standards, LEED emphasizes state of the art strategies for sustainable site development, water savings, energy efficiency, materials selection and indoor environmental quality.

LEED provides a complete framework for assessing building performance and meeting sustainability goals. Based on a system of prerequisites and credits, LEED projects earn points during the certification process and then are awarded one of the four certification levels: Certified, Silver, Gold, and Platinum.
